

Artist of the Month

Gerald (Jerry) Park

...Looking Back...
(The Second Half)

Last November, Jerry's art show covered his involvement with art during the first half of his life. This November, the show will cover the second half of his art teaching career all the way to his retirement. This show is, again, a retrospective of his work, and includes many of the lesson plans that he created for student projects.

Jerry majored in art throughout his education and received his B.A. degree and teaching credential from San Jose State College. He took a teaching position at Patterson High School in 1962 and taught art there until his retirement in 2001.
