

## **The Carmel Foundation Wednesday Programs August 2018**

Refreshments Served Immediately Following the Program

### **Rescuing Whales from Life-threatening Entanglements, The Whale Entanglement Team**

Time: Wednesday, August 1, 2:30pm

Join Peggy Stap, Executive Director of Marine Life Studies with her one-of-a-kind presentation about saving entangled whales. The Whale Entanglement Team (WET)® was founded by Peggy along with Mary Whitney, Founding Director of Fluke Foundation. WET® is the rapid response team when an entangled whale is reported. Learn how this highly trained team uses specialized equipment to rescue whales from a slow, painful death due to life-threatening entanglements.

### **The Complete History of Humor in Art by Will Bullas**

Time: Wednesday, August 8, 2:30pm

Will takes the audience on a hilarious visual history of his search for the origins of humor in art through the ages beginning with the earliest cave paintings to his most recent fine art humorous paintings. Will is current President of the Carmel Art Association and has been a member since 1980.

### **Everyone has a story. Share yours!**

Time: Wednesday, August 15, 2:30pm

Join Christine Winge current ED of AMP Media – AMP is a community not-for-profit media broadcast organization, funded in part by local communities including the Cities of Monterey, Marina and Seaside to provide television broadcast and production services to public, educational, and government organizations. Christine will share the history of AMP Media, what it does in our region, why it is so important and the impact it has in our community.

### **No Wednesday Program**

Time: Wednesday, August 22, 2:30pm

No program due to Car Week.

### **Monterey Bay Village Looking Ahead Wellness Series – New Electronic Health Records System Benefits Montage Health (CHOMP) Patients**

Time: Wednesday, August 29, 2:30pm

Starting August 1, Montage Health with the launch MyChart, a free, secure, online portal to access personal health information. MyChart will enable people who have had services at Montage Health or its entities to view their medical records and test results, update their information, pay their bills, have greater portability with their health information, and more. Patients will be able to communicate with their care team by email and manage prescriptions and appointments online. Join Dr. Steven Cabrales to learn how MyChart is part of the Epic electronic health record system.
