### **Ramses the Great and the Gold of the Pharaohs**

Join Tom Logan for a state-of-the-art presentation about the exhibition of Ramses the Great. Tom has been a professor at Monterey Peninsula College for 30 years and holds a degree in Egyptology from the University of Chicago. He has excavated in Egypt several times, packed up the Tut exhibit in 1976 and worked at the Metropolitan Museum of Art in New York. Ramses was the most celebrated and powerful pharaoh of the New Kingdom – Egypt’s golden age. Believed to be a god on Earth, he ruled for 67 years as part of the 19th Dynasty, erecting enormous temples, obelisks, and statues and expanding Egypt’s empire. Along with the pharaoh’s colossal royal sculpture, the exhibition highlights unlooted royal tomb objects never before seen in the US.
